# CONFERENCE TRACKS 2020 GlobalMindED

## K-12 TRACK

LOCATION: TOWER COURT A

### Equity Begins with Early Childhood

**PANEL LEADER:** Lisa Roy, *Buffett Early Childhood Institute, Univ. of Nebraska*

Sharing innovative partnerships that focus on early childhood education and experiences, the panel explores accountable options within and outside of school. The practitioners provide insights into their struggles and successes as they've begun new programs with the end in mind—that all students have an opportunity to grow through learning experiences targeted toward the emotional, social, and cognitive development of young children.

Michelle Hyman, *Silicon Valley Community Foundation*

Heather Duncan, *Collaboration For Early Childhood*

SaraBeth Berk, *FutureBound*

Martha Kaufeldt, *The Motivated Brain*

### Using Self-Assessment to Empower At-Risk Students

**PANEL LEADER:** Dr. Rico Munn, *Super. of Aurora Public Schools (slated)*

Assessment is a gatekeeper that includes or excludes. Rather than thinking of the intellect as limitless, the present accountability system is based on the limits and deficits that students show. How can we make performances multi-dimensional and use self-assessment to engage, motivate, and grow students' confidence and resilience? Educators and professionals discuss the impact of self-assessment they learn at school as a compass to guide students towards the life they dream.

Nadine Klein, *Douglas County*

Eric Chagala, *Vista School (slated)*

athlete TBA, *US Olympic team member*

Milton Nettles, *Williamson County Schools (TN)*

### Scaling College Admissions to Underserved Students

**PANEL LEADER:** Jim Larimore, *ACT Equity*

Startling inequities surround college admissions guidance for students. This panel offers possibilities for addressing the inequities through improved counseling strategies. In addition, there will be tips that are often not apparent to First-Gen college students. The panelists share how they open the portals to admission to both college and graduate school.

Lawrence Hernandez, *HCA Healthcare*

Carissa Miller, *CCSSO*

Dr. Jerry Anderson, *Principal, Homewood Flossmoor*

Paris Andrew, *Duke University TIP*

Dr. Jason Glass, *Jeffco Public Schools (slated)*

### Attracting and Retaining a Diverse Teacher Population

**PANEL LEADER:** Dr. Rebecca Kantor, *Dean, School of Education, CU Denver (slated)*

Many schools/districts seek a diverse teaching workforce but are uncertain how to start. Limited resources are spent to no avail. The panel will focus on how to use data to analyze and address the gaps and redundancies, and discuss strategies to improve teacher recruitment and retention.

Keara Mascareñaz, *Education Elements*

Etai Mizrah, *Acadium*

Michael Giles, *Cherry Creek Schools (slated)*

Bernard McCune, *College & Career, Denver Public Schools*

### The Leadership Role in Fostering Diversity, Equity, and Inclusion in the 21<sup>st</sup> Century

**PANEL LEADER:** Ed Noh, *Hawaii Department of Education*

Learning innovation happens in schools across the country; but it takes leadership to drive changes toward sustainability. People on the ground transform organizations. The panel focuses on state-level leadership's support for innovative practices. Learn how community leaders created strong partnerships based on a framework including an audit based on diversity, equity, and inclusion.

Dr. Cristina Kishimoto, *Superintendent*

Kristi Oda, *Hawaii Department of Education*

Kristen Brummel, *Hope Street Group*

Pamela Goodwin, *Leadership Institute*

Lesley Brown Rawlings, *Beloved Community*

### Equity Consciousness, Special Needs, and Diversity

**PANEL LEADER:** Yvette Jackson, *National Urban Alliance*

Equity is education informed by a belief that all students are innately wired for engagement, self-actualization, intellectual performance, and personal contribution. "Equity consciousness" needs an environment where all students feel they are valued, where potential and strengths are affirmed and social-economic backgrounds are ignored. Motivation and aspiration are inspired, and learning nurtures self-determination and personal investment—considerations usually reserved for the "gifted."

Lauren Wells, *Newark Public Schools*

Theo Robinson, *Thompson School District (slated)*

TBA

TBA

### Cultivating Equity in a School District in Crisis

#### *Creating Psychologically Safe and Equitable Environments*

**PANEL LEADER:** Mary Ellen Weeks, *Reynoldsburg City Schools*

Discuss the neurobiology of stress/trauma and its effect on mind, body, learning brain, and college-and-career success. "Brain-friendly" environments enable students not just to survive, but to thrive. A team from Ohio outlines their transformation of the system with an equity-driven strategic planning process, and describes how they attended to cultural stresses with restorative practices.

Melvin Brown, *Reynoldsburg City Schools*

Dr. Martha Kaufeldt, *Begin with the Brain*

Dr. Plashan McCune, *Denver Public Schools*

TBA

**HIGHER ED TRACK**

LOCATION: TOWER COURT B
