[GlobalMindED](#)'s third annual event in the Delegates Dining Room at the United Nations Shapes Global Leaders and Builds Talent Pipeline

The GlobalMindED event in the Delegates Dining Room at the United Nations October 20, 2025, event brings leaders from business, government, education, and non-profits together with selected students to discern solutions to today's workforce pipeline challenges. The 2025 theme is **The World at Your Doorstep: Local Action Shaping Global Leaders**. A staggering 52% of college graduates, many originating from under-resourced communities, find themselves underemployed. This impacts the individuals and hinders business growth, which weakens the overall economy. GlobalMindED, the Inclusive Success Network™, connects students with limited resources to mentors, internships, and career opportunities. This fosters a diverse talent pipeline while closing the equity gap. Contact GlobalMindED now and be part of the bold solution.
